

Knowle, Dorridge & Bentley Heath

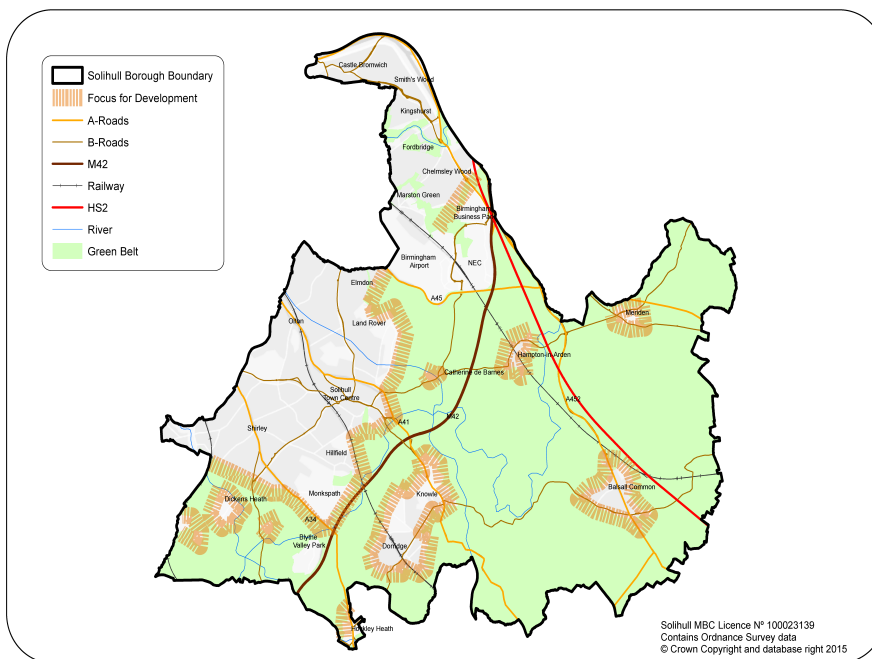

Neighbourhood Forum Meeting – 13 January 2016

7-9:30 pm – Arden Academy

AGENDA

January's Forum is an extraordinary meeting entirely dedicated to Housing, in response to Solihull Council's (SMBC) recent publication of options under consideration for new housing development. This will almost certainly also require review of the green belt.

Three of these options would have direct impact on our Neighbourhood Area - with the most significant (Option G pictured below) potentially involving a major extension of c.1000 dwellings to the NW of Bentley Heath as well c. 500 houses around Knowle and Dorridge.

More information on our website kdbh-np.org.

Our Housing Team will:

1. explain the background and drivers behind these developments;
2. take us through the various options, and what they could mean for us;
3. explain the process of SMBC's 'call for sites' for new developments; and, most importantly,
4. **seek the views of attendees** as input to the Forum's formal response to SMBC's consultation document, which must be submitted by 22 January 2016.

This is an opportunity not to be missed to ensure that views from across our Neighbourhood are heard and considered right from the outset of SMBC's Housing review.

We urge as many residents as possible to attend and look forward to some interesting debate....
